

YOUR RESOURCES MAXIMIZED

Expand your team without adding to your overhead.

ScanSource Services Group understands what it takes for you to get a project done. Our trained technicians build your solutions to spec. And we understand that doing it right, on time and cost effectively makes you happy. At our 30,000 sq. foot, ISO 9001:2008 certified Custom Configuration Center, our team can design, develop and implement the right solution for you. From server hardware and software integration, to configuration and testing, to delivering ready-to-go systems to your customers, we offer a full spectrum of custom configuration services. With ScanSource Services Group, you can accomplish the mission of maximizing your resources while minimizing your time to deployment.

Additionally, the ScanSource Services Group Configuration Team:

- Eliminates DOAs, because all units are fully tested
- Removes the expense and hassle of shipping and handling product at your location
- Decreases invoicing cycle time and installation time
- Provides turn-around time in as few as two days
- Offers same-day shipping for pre-built solutions

Let us be the cost-effective, real-time extension to your company! Call today at 866.370.6712 or visit ScanSourceServices.com.

Your business. Maximized.
